## EXPRESS GEL

2-component shaking gel in bottles with only 5 seconds of mixing time

### Product benefits

- Fastest workable gel casting compound of all marketable gels
- Easiest handling
- Innovative mixing system by shaking
- Unique **indication** of the completed mixing reaction **by color change**

### Application areas

- For extremely fast casting
- **Fast-repair-solution**
- **Temporary** applications

Product	Content	Art.-No.
EXPRESS GEL 400	400 ml	364845

Bottles

Cans

Mixing bag

Cartridge

Plastic tin

## POWER GEL

2-component gel in bottles, individually dosable  
all-in-one solution with mixing cup and spatula

### Product benefits

- User-friendly complete system
- Individually dosable
- Flexible and very efficient
- Reclosable bottles allow multiple applications and storage

### Application areas

- For flexible casting
- Ideal for branch and connection boxes
- Protection class IP 68 in suitable housing

Product	Content	Art.-No.
POWER GEL 400	400 ml	335120
POWER GEL 1000	1000 ml	335121

Bottles

Cans

## JUMBO GEL

2-component gel in cans for economical casting of big quantities

### Product benefits

- Particularly cost-effective and efficient
- Individually dosable
- Mixable in standard bucket
- Reclosable cans allow multiple applications and storage

### Application areas

- For flexible casting
- Ideal for large junction boxes or serial casting
- Protection class IP 68 in suitable housing

Product	Content	Art.-No.
JUMBO GEL 2000	2000 ml	364306
JUMBO GEL 5000	5000 ml	364307
JUMBO GEL 10000	10000 ml	364308
ZS-JUMBO GEL 5500	Bucket, spatula	366512
ZS-JUMBO GEL 12000	Bucket, spatula	366513

Bottles

Cans

Mixing bag

Cartridge

Plastic tin

## **CLEAR GEL**

2-component gel in mixing bags, high transparent for versatile applications

### Product benefits

- Permanently **high transparent**
- **Very simple, absolutely clean mixture** of the gel components
- Also available with small volumes (starting from 80 ml)
- **Automatically reclosing**, e. g. the canal after using test pins

### Application areas

- Ideal for **opto-electronic** applications (e. g. LED profiles)
- **Branch and connection boxes**
- **Protection class IP 68** in suitable housing

Product	Content	Art.-No.
CLEAR GEL 80	80 ml	364031
CLEAR GEL 150	150 ml	364032
CLEAR GEL 250	250 ml	364033
CLEAR GEL 350	350 ml	364034
CLEAR GEL 500	500 ml	364035

Bottles

Cans

Mixing bag

Cartridge

Plastic tin

## **SUPRA GEL**

2-component gel, ready to use in cartridge for small housing volumes

### Product benefits

- **Mixing and casting in a single step**
- **Clean processing and exact dosing**
- **Reclosable cartridge allows multiple applications and storage**
- **Gel cartridge suitable for use with standard caulking gun**

### Application areas

- **For narrow work situations**
- **Branch and connection boxes, mainly in difficult access areas**
- **Protection class IP 68 in suitable housing**

Product	Content	Art.-No.
SUPRA GEL	250 ml	364036
Static mixer SUPRA GEL	1 piece	366780

Bottles

Cans

Mixing bag

**Cartridge**

Plastic tin

## SOFT GEL

1-component gel, ready to use in cartridge with special application range

### Product benefits

- **Extremely sticky and drip-free, re-accessible and repositionable**
- **Avoids insects from intrusion** of casted electrical installation/surface
- Reclosable cartridge allows **multiple applications and storage**
- Gel cartridge **suitable** for use with **standard caulking gun**

### Application areas

- Electrical installations **endangered by insects**
- **Corrosion protection**
- **Temporary protection**, e. g. of open sockets or plugs

Product	Content	Art.-No.
SOFT GEL	310 ml	364723

Bottles

Cans

Mixing bag

Cartridge

Plastic tin

## FLOW GEL

1-component gel, ready to use in plastic tin with permanent flowability

### Product benefits

- Individually dosable
- Dosing and processing by hand
- Self-leveling and permanent flowable
- Removable, re-accessible and repositionable

### Application areas

- cover horizontally arranged surfaces and complex contours
- Protection of circuit boards and displays
- Protection against dust and moisture

Product	Content	Art.-No.
FLOW GEL 400	400 g	365280
FLOW GEL 1000	1000 g	365281
