EASY-CLEAN

Hand Cleaner Wipes

The patented hand cleaner EASY-CLEAN is a combination of a highly effective cleaning solution and a specially developed microfiber cloth.

It removes easy and gentle to the skin heavy fat stains, tar, oil, copper paste, brake and coal dust, varnish and paints, inks, grass stains and many other stains amongst others.

The most effective cleaning effect is achieved with the aid of the combination of patented liquid formula and durable, roughened cloth surface.

EASY-CLEAN is more effective than soap and water, is convenient and easy to use and provides a better alternative to solvents.

Application

- Remove most of the dirt using the darker textured side of the cloth, then polish with the soft side to achieve a completely clean residue-free finish.
- To remove ingrained dirt apply the darker side of the cloth. Leave to soak in, then rub. If the stain has not come out, leave to soak for longer.
- Skin may feel slightly sticky after use due to moisturising emulsion, as absorption time varies according to skin type.

Warning

- For external use only
- Avoid contact with eyes
- Keep dispenser away from heat sources
- Keep out of reach of children
- In sales display the wipes are packed individually

Characteristics
