EASY-GLIDE

Cable Lubricant

You have certainly experienced that pulling new cables or wires in existing cable channels is tough – with Easy-Glide you get a perfect lubricant. It allows you to gain time, it protects cable sheaths from damages, it is biologically safe and harmless to health. Increase your productivity thanks to Easy-Glide. From now also available in a 250 ml bottle.

Easy-Glide eases and accelerates the pulling of cables and wires through cable channels. Damages of the outer sheath will be avoided. Several tough jobs, for which you used to spend a lot of time will become so easy that you will have time for other more important projects.
